Summer 2020

Message from School Principal Dawn Best

Thank you for your support, creativity, dedication and positivity this school year. This year has been eventful to say the least. We are so proud of all our wonderful pupils and hope you have a summer full of rest, relaxation, and of course lots of fun. For those that are moving up to secondary school, we wish you the very best of luck. Keep focused, keep positive and always be true to yourself. For those returning in September, we look forward to welcoming you back.

"Just because my path is different, doesn't mean I'm lost"

Oak and Willow Class

We have been busy baking in the kitchen and getting creative with our art projects. We are celebrating end of term with a garden party and party games.

Treetops Class

We have been doing lots of amazing work at school and at home. We've been exploring 'Big City' for our topic, looking at the landmarks, tubes and transport of London. We have made Washing lines to show our arts and crafts and had fun playing bowls and skittles too! We've planted seeds in the garden.

Best Futures School Song

Written by Willow and Oak Class pupils
(to the tune of Yankee Doodle)

Best Futures School is the place to be, education like no other
Children, staff and animals all different and amazing
Learn about the world in topic, exploring different cultures
Meditation, mindfulness and lots of calming lessons
Freedom to do the work we want, helps us be creative
Animals there to guide and comfort, even if you're sad
When we've worked so hard all week, we get some fun on Fridays
Best Futures School's the place to be, education like no other

Thank you for sending us
photos of your amazing art
and crafts!
